SOLAS RF-SABB
Wireless External Sounder
Protection - with style

Introducing HKC's new wireless external sounder - the SOLAS RF-SABB, bringing you an eye-catching design for stand-out security. Completely wireless and easy to install, the new siren comes with a colourful range of lids and lenses and free screen printing of your company logo, prominently displaying your brand.

As you'd expect from HKC, the emphasis on technical details means the SOLAS RF-SABB is packed solid with features designed for additional security and resilience, such as RF jamming detection, pry-off and lid tampering sensors and a high-intensity strobe.

The product's robustness comes from it's polycarbonate housing, conformally-coated electronics and fully-encapsulated, waterproof LEDs giving you confidence you're providing an enduring solution.
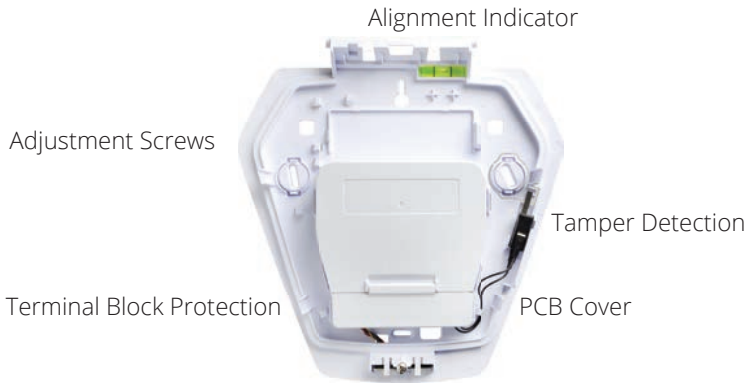

The SOLAS RF-SABB is incredibly flexible too with programmable guard timer, sound output levels and lighting, and can also be connected to a permanent 12V supply giving you the additional option to use the onboard backlight.

The SOLAS RF-SABB gives you eye-catching, robust security - with style.
